OPIUM and Whiskey Habits cured at home without pain. Book of particulars sent FREE. B.M. WOOLLEY, M.D., Atlanta, Ga. Office 104½ Whitehall St.

FROM WASHINGTON.

News Gathered at the National Capital.

THE NEW IMMIGRATION LAW.

Congress Will Be Compelled to Amend It the Coming Winter—Fair Prospect of Another Hitch in the Behring Sea Matter—What Will Be Done With the Itata. Other Washington Dispatches.

WASHINGTON, June 6.—Gen. James R. O'Beirne, deputy commissioner of immigration at New York, who is in Washington conferring with treasury officials about immigration matters, says the new immigration law, while effective as far as it went, was not yet comprehensive enough and that congress would be compelled to amend it next winter. The law, he thinks, lacks the positivism usually given to health boards.

Something, he says, will have to be done to prevent the arrival of unskilled laborers, who displace Americans in order that corporations may pay out less wages. Despite contract labor law men, who have been foremen or superintendents, go abroad and secure large gangs of men, bringing them over to this country and keeping secret the matter of their contract.

He says, also, that this state of affairs can only be remedied by the watchfulness of officers of the labor unions, who can aid the immigration bureau by notifying it at New York or Washington when gangs of workmen appear in their town under suspicious circumstances. The facts would then be investigated and the men, if they came here under contract and are discovered within a year, can be returned to the country from whence they came.

The Behring Sea Matter.

WASHINGTON, June 6.—There is a fair prospect for another hitch in the Behring sea matter before it reaches arbitration, and there are obstacles yet to overcome before an agreement can be reached for a closed season. The bill passed by the house of commons confers authority upon the queen to issue a proclamation prohibiting British subjects from taking seals during a certain period, but the issuance of this proclamation is dependent upon the disposition of the queen—or rather of Lord Salisbury. The British government, it is understood, will insist that the United States shall be pledged to pay British subjects for losses sustained through the deprivation of sealing privileges during the closed season if the contentions of the United States are not sustained by arbitration.

On the other hand the British government will probably agree to pay damages to the American company in case a different decision is reached. Of course, the president can give no such pledge for payment of damages, that being a matter that congress alone can deal with. Congress not being in session, this question complicates the situation, and it is doubtful how the matter will be settled.

Five Foreign Visitors.

WASHINGTON, June 6.—Assistant Secretary Nettleton yesterday empowered Director General Davis, of the world's fair, to appoint five commissioners to visit Europe in the interest of the fair, and to have their expenses paid by the government. Mr. Davis left Washington soon afterward, suddenly being summoned home by a telegram announcing the death of his mother. Mr. Davis will, within a few days, announce the names of the commissioners selected.

The Itata Case.

WASHINGTON, June 6.—The case of the Itata is not yet in the custody of the department of justice and will not be until that vessel reaches San Diego, Cal. The usual course, Attorney General Miller says, will then be pursued, the vessel will be libeled and the case tried in the courts. If she is found guilty of violating the neutrality law she will be confiscated; if not, she will be released. The same course is now being pursued with the Robert and Minnie.

Investigation to Be Made.

WASHINGTON, June 6.—A board of officers has been ordered to meet at the Norfolk navy yard to investigate the circumstances of the death of the two men on the United States steamship Concord by the blowing out of her main steam pipe, which occurred a few days ago while on her final trial trip. Commander Batcheller, of the Concord, requested that the investigation be made.

Tobacco Statistics of Massachusetts.

WASHINGTON, June 6.—The census office yesterday gave out the tobacco statistics of Massachusetts. The total number of planters in the state during the census year was 786; the total area devoted to tobacco 2,012 acres; the total product 2,794,848 pounds, and the value of the crop to the producers, estimated on basis of actual sales, \$339,074.

Kentucky's New District Attorney.

WASHINGTON, June 6.—Attorney General Miller has appointed William McD. Shaw assistant United States district attorney for Kentucky.

Cockerill's New Venture.

NEW YORK, June 6.—The Daily Continent makes the following announcement: The plant and franchise of The Daily Continent have been sold to John A. Cockerill, who proposes on Monday morning next, June 8, to begin the publication of a one-cent daily newspaper, to be known as The Morning Advertiser.

Students Fined.

BOSTON, June 6.—In the Cambridge court yesterday thirty students of Harvard college were fined \$65 each for having liquors stored in their rooms.

TO EXPLORE GREENLAND.

The Expedition Under Lieutenant Peary Leaves New York.

NEW YORK, June 6.—The little steam brigantine Kile, with the exploring expedition of the Academy of Natural Sciences, of Philadelphia, this morning started for Greenland.

The Kile arrived on Wednesday from St. John's, N. F., in ballast to Bowring & Archibald, New York, having been chartered by Lieut. L. Peary, of the United States navy, for three months. Her captain is Richard Pike, who went out with Lieut. Greely in 1881, and was also one of the Greely rescue party in 1883.

The Kile is a small vessel, the smallest, it is said, which has undertaken so perilous a voyage in recent times. She was built in Norway in 1873 for seal fishing and was used constantly between 1873 and 1877 from St. John's. The Kile's dimensions are 117.6 feet long over all, 26.4 feet beam and 14 feet hold. Her tonnage is 230 gross and 190 net. The engine is of fifty horse power and being a vertical engine the builder was enabled to place it well aft. The propeller is so constructed that it can be triced up in thick ice and the rudder unshipped. Her normal speed is seven and one-half knots with steam, and with both sails and steam fully nine knots.

As a protection against the ice while running free, the Kile's bows seventeen feet back are a solid mass of wood, the timbers being dovetailed together. A vertical strip of iron passes from the bowsprit down the nose under the water line and some distance along the keel. The iron is four inches wide and one inch thick. Straps of iron four inches wide and one and one-half inches thick are bound around the nose horizontally to snub the ice. From the stern two-thirds of the way forward the sides are doubly planked. Both sides down to the keel forward are also doubly planked. Under the deck aft there is a little saloon, approached by a companionway in the middle of the deck. The companionway is small, winding, steep and narrow. The saloon is barely large enough to accommodate a dozen people standing. A few feet from the saloon in front are the engines and state rooms, some with two berths and others with one, on each side.

Personnel of the Expedition.

Capt. Pike and his crew are to live in the forecabin, over which are turned two sealing boats covered with rubber cloth. There are besides Capt. Pike, Chief Mate Edward Tracey, Boatswain Patrick Dunphy, Chief Engineer William Jardine, Second Engineer Alexander McKinley, Steward Lawrence Hackett, Assistant Steward Patrick Welsh, Cook Thomas Pepper, Firemen Andrew Roost, Edward Crook and John Cunningham and Able Seamen Thomas Collins, John Cummings, Timothy Looney and John Verge, with Lieut. Peary, who is accompanied by his wife, have five associates whom he did not wish to name: Professor Angelo Heilprin, geologist, who is to lead the West Greenland or auxiliary expedition; Professor Benjamin Sharp and Professor J. W. Holt, zoologist; Dr. W. H. Burk, botanist; L. W. Mentel, entomologist; Frazier Ashurst, Dr. Robert N. Keeley, surgeon, and Alexander C. Kenealy, journalist.

Lieutenant Peary Interviewed.

Lieut. Peary and Mrs. Peary were in town Thursday. The corps of scientists arrived Friday.

Lieut. Peary said in an interview that the chief object sought to be accomplished by the expedition is the solution of the problem whether Greenland is an island or a continent.

"If it is a continent, and it seems to me that the weight of the evidence is that way," Lieut. Peary continued, "the vexed question of the finding of the north pole will have been answered in the affirmative, for it will be necessary, in order to reach the pole, only to penetrate further and further into the frozen country along the line of the western coast of Greenland. If it shall be proven that Greenland is a continent, many lives of explorers who might seek to reach the pole by sailing north will be spared."

"Coal will be taken on board as often as possible, as the engine will consume six tons a day. We expect it will take from three weeks to a month to reach Whale sound, where a house will be built for Mrs. Peary and myself, and the North Greenland expedition of scientists will start out and establish provision stations to the northward and eastward. All this will consume a year, and the actual business of the excursion will not be begun until the summer of 1892."

"Journeys from station to station will be made on snowshoes and ice skates or skis by the North Greenland scientists, while provisions will be transported by Esquimaux dogs and by members of the party. It is believed that Professor Heilprin and myself that the party will reach within 350 miles of the north pole by traveling, it is estimated, about 1,200 miles to and from the main station. This journey will consume about three months, including rests, and the daily journey will cover from eighteen to twenty miles."

"The West Greenland party will keep as close as possible to the western coast. The conformation of the coast line will be carefully noted, together with the position, length and breadth of its fiords and the height of the mountains. Special attention is to be paid to the vegetation on the sides of glaciers, and it is expected that many rare and hitherto unknown specimens of plants will be discovered. The geologists will study, independently of the glacial phenomena, the strata as far as is possible and experiments will be made to enable them to learn whether Greenland is gradually sinking or building. Glaciers will also be studied and their motion compared with the smaller Alpine glaciers, in order that the law of the movement of glaciers may be better understood than it now is."

"To investigate the zoology of Greenland about a ton of dredges, surface nets, a taxidermist's outfit and eighty gallons of alcohol will be carried on the Kile. The waters along the shore will

be thoroughly dredged and excursions will be made on the mountain sides for animals for the taxidermist. New birds, it is hoped will be found and brought back to be placed in the Philadelphia museum. Botanists will be interested in the study of flowers that are found under the ice, and an attempt will be made to learn at what temperature vegetable life ceases to exist."

Mrs. Peary is a handsome young woman and she will accompany her husband from a love of adventure. There is nothing of the tourist in her appearance.

"There is only one thing that I am at all afraid of," she said, laughing, "and that is that there won't be enough to eat. When I went to Europe I was so hungry on board the ship that it seemed as if I could not get enough to eat."

MIDLAND TROUBLE NOT SETTLED.

The Strikers Still Hold the Train and the Sheriff Called on to Move It.

CRAWFORDSVILLE, Ind., June 6.—The Midland strike is not over, as everybody thought it would be when the McCalmnet judgment was paid into court. A. D. Hanna, leader of the strikers, says that this is not satisfactory, because now the money will be available for some of McCalmnet's creditors who took no part in the strike and bore none of the hardships of the last four weeks; also that it will still leave some of the strikers unpaid. He wants the actual cash paid over to his men.

Yesterday when an attempt was made to take a train out of Waveland it was stopped by the strikers, who claimed that the road had not deposited enough money with the court by \$300 or \$400 to pay off their claims. Henry Crawford and Traffic Manager Moore were here and held a conference with Judge Snyder, who ordered Sheriff McClosky to take a posse of men to Waveland and to start the trains, employing force if necessary, and to arrest all strikers who attempted to interfere.

PASSENGER TRAIN WRECKED.

Heavy Rains Cause an Accident on the Denver and Rio Grande.

DENVER, June 6.—Passenger train No. 6, on the Denver and Rio Grande, was wrecked yesterday at a point about fifteen miles south of this city. The heavy rains the last few days had washed the supports from under a culvert. The train consisted of the engine, two express cars, three sleepers and three chair cars.

The engine passed over the culvert safely, but all the coaches, excepting the three sleepers, left the track and were very badly damaged. The passengers were considerably shaken up, but no one was killed and only two injured. The injured are Edward Grater, of Cunningham, Col., badly cut about the head and neck; Richard Provost, of Leadville, injured in the back and right knee.

Saved by Its Speed.

INDIANAPOLIS, June 6.—A special from Jeffersonville, Ind., to The News says: The Indianapolis and Louisville fast train ran into a tornado near Crothersville as it crossed the track. The engine and train swayed fearfully and the passengers were panic stricken. Lehman Bush, the engineer, could not stop until the train had pierced the cloud, the train going nearly fifty miles an hour. Its speed saved it from being wrecked.

Attempted to Burn a School Building.

BOSTON, June 6.—A boy named Walter C. Hense, aged 11 years, was arrested here yesterday on a charge of attempting to set fire to the Emerson street school on Poplar street last Monday. The boy is a pupil at the school, and on Monday asked leave to go out. Shortly afterward fire was discovered in one of the closets, where a quantity of shavings had been put. There were several hundred children in the school at the time.

A Heartless Mother's Act.

SPRINGFIELD, O., June 6.—At 6 o'clock yesterday morning a naked, unwashed and unconscious babe was found on E. W. Jacob's doorstep in a small grape basket. It had been in the cold evidently for several hours and was three-fourths frozen. It was resuscitated after hours of work. No clue to the mother who got rid of her offspring in this heartless manner.

Killed by a Masked Man.

SALT LAKE, June 6.—Ed. Callihan, a mining man and well known sport, was murdered by a masked man about two miles south of this city at an early hour yesterday morning. Josie Hill, a woman of loose morals, who was with him at the time, has been arrested, charged with luring Callihan to his death.

Secretary Foster's Silence.

NEW YORK, June 6.—Secretary Foster again visited the sub-treasury yesterday and saw a number of bankers. He will not make known his decision in the bond matter until his return to Washington. He was entertained at luncheon by the Lawyers' club in the afternoon.

One Soldier Shoots Another.

SALT LAKE, Utah, June 6.—Rufus Smith, a private of Company D, Sixteenth infantry, U. S. A., stationed at Fort Douglas, shot and fatally wounded William Carter, of Company H, during a quarrel over a game of cards last night.

Smallpox at Columbus.

COLUMBUS, Ind., June 6.—A genuine case of smallpox developed here yesterday in the person of Benjamin Enoch, aged 40, and a man of family. It is not known where he contracted the disease.

News Company Embarrassed.

CANTON, O., June 6.—The Canton News company has gone into the hands of a receiver, Attorney W. H. Snider, having been appointed as receiver. Slow collections is the cause.

Fell from a Tree.

SPRINGFIELD, O., June 6.—Charles Beard, 12 years old, fell twenty feet out of a tree yesterday and was slightly injured.

REVIEW OF TRADE.

Dun & Company's Report on the Condition of Business.

EFFECT OF THE GOLD EXPORTS.

Six Million Dollars Shipped to England During the Past Week—The Money Market at Different Places—A Hopeful Outlook for Trade.

NEW YORK, June 6.—R. G. Dun & Company's weekly review of trade says: While the hesitation in business has not ceased, and decided activity is hardly expected now until the close of the fiscal year, it continues to be a matter of surprise and congratulation that the money markets and trade have been so well sustained in spite of heavy exports of gold. The exports this week have already been about \$4,000,000, and from orders thus far it is expected that \$2,300,000 more will go out Saturday. The exports of products are larger than a year ago, with not much difference in imports, but the excess of imports was very large at this time last year.

The New York money market has been easy, rates on call dropping from 3-1/2 to 3 per cent., with heavy receipts from the interior. Reports from other cities show that money is tighter at St. Louis, tight at Nashville, firmer at New Orleans and Pittsburg, in hardly adequate supply at Cleveland, not stringent but affected by distrust on account of city finances at Philadelphia, firm at Boston, in good demand in Chicago and Milwaukee, but with supply for all legitimate needs, and easy at all other points reporting.

Trade is not very active, but almost everywhere hopeful. Failures at Boston have made shoe manufacturers cautious, but there is a belief that the worst is over, and that fall trade will be very active. Hides are easy, dry goods quiet, and wool sales moderate. The exposures of official and banking misconduct at Philadelphia tend to make business inactive, and no life is seen in iron; wool is dull, though some concessions are made by western holders. At Hartford a little improvement is seen in hardware and groceries, but none in dry goods. At Pittsburg a rise in iron is prevented by re-opening of some Mahoning and Shenango furnaces and preparations of others; window glass is fairly active but flint dull. At Cleveland iron is in more demand, trade is good in dry goods, hardware and groceries, and dull in shoes. Some activity is noted at Cincinnati in clothing, and at Detroit trade is up to last year's in volume.

Throughout the west and south the fine crop prospects give encouragement, almost the only complaint now coming from New Orleans of drought in the adjoining regions. In the northwest continuous rains have made the prospects unsurpassed. Chicago reports larger receipts than a year ago of flour, wheat, cheese, hides and three times as much wool; smaller receipts of oats, rye, barley, and but one-third as much of cured meats; with full trade in dry goods, and bright prospects generally. St. Louis notes a fair volume of trade, Milwaukee great improvement from rains, and at St. Paul also; while at Minneapolis the lumber trade is unsurpassed. At Omaha and Denver trade is fair and at Kansas City dull, caused by too much wet weather. At Louisville the outlook is good, but at Nashville a heavy dry goods failure causes some depression, and there is no improvement at Memphis. New Orleans reports trade dull, cotton in fair demand, sugar active, molasses dull and rice quiet and lower. At Savannah trade improves, and at Jacksonville is quite steady.

In the great industries there is a better demand for iron, as yet without change in prices. More orders for structural iron come from the break in the building strikes, and special caution appears in the boot and shoe trades. Sales of some cotton goods are recorded at the lowest prices ever made. Wool moves slowly, but yielding at the west gives a better prospect. In breadstuffs the decline continues. Pork products are lower, and coffee about three-eighths, while tin, copper and lead are all stronger.

In general, the approach of a harvest which is expected to be most bountiful has its natural effect on prices, and trade is but little embarrassed by speculative movements.

The business failures throughout the country during the last seven days number, for the United States, 211, and for Canada 13, or a total of 224, as compared with a total of 254 last week, 247 the week previous to the last and 205 for the corresponding week of last year.

MINISTER MOBBED.

Winnipeg Liquor Dealers Make It Unpleasant for Their Prosecutors.

WINNIPEG, Man., June 6.—Yesterday Rev. Mr. Mordy, a well known Winnipeg divine, went to Portage to conduct the prosecution of half a dozen hotel keepers who had violated the liquor laws. Mordy secured a conviction, and when leaving the court room was mobbed. He escaped with slight injuries, taking refuge in the Methodist parsonage.

Later in the day when he arrived at the depot to take the train for Winnipeg, he met a warm reception, the liquor men first covering his clothes with rotten eggs and then assaulting him. He was badly hurt. Rev. Mr. Martin who went to his assistance, had his nose broken and otherwise badly handled. Winnipeg liquor men threaten to renew the attack.

Output of Kentucky Jeans Reduced.

LOUISVILLE, June 6.—A meeting of ten representatives of the southern manufacturers of Kentucky jeans was held here yesterday. It was resolved that, owing to the present condition of the trade, it was advisable to reduce the output one-third.

ABRAM ADDAMS.

Call for a Meeting of the Democratic Executive Committee.

The members of the Democratic Executive Committee of Mason County are requested to meet at the office of the Chairman, corner of Third and Sutton streets, Maysville, Monday, June 8, 1891, at 1 o'clock p. m., for the purpose of fixing time and manner of selecting a Democratic candidate for Representative.

J. N. KEOH, Chairman.

G. W. ROGERS, Secretary.

WHAT'S the matter with the American hens? Canadian eggs bring a cent more a dozen than the home-laid article.

NEW YORK gas companies surprised the people a few days since by voluntarily reducing the price of gas from \$1.50 a thousand feet to \$1.25?

THE Hawesville Plaindealer was very plain and spoke to the point when it remarked that most of the newspapers that oppose the new Constitution have read the Courier-Journal instead of the instrument.

THE Cincinnati Post has found that of forty-one Democratic papers in Ohio twenty-two are for Campbell for Governor, six for Neal, five are anti-Campbell, two anti-Neal and six are undecided. Between Neal and Campbell, the latter is undoubtedly the choice.

THE very men whom the people of Rhode Island rejected last fall, at the polls, have been placed in charge of the State government by the Republican Legislature. The New York World characterizes this as a deliberate theft. There is need of some change in the election laws of that State.

THE Reed-Harrison Republicans don't seem to be much in favor of economy in the administration of public affairs. An increase of 1,695 in the number of Government employees, and of more than \$5,100,000 in the annual pay roll was one of the minor achievements of the Reed Congress, says the National Democrat.

MILLIONAIRE JOHN M. ATHERTON, of Louisville, is one of the leaders in the fight against the new Constitution. He is President of the giant whisky trust, Director in the Louisville Gas Company, is interested in the L. & N. Railroad, and in many other big corporations. It is easy to see why he is opposed to the new Constitution.

JUDGE P. B. MUIR, of Louisville, was asked for his opinion of the new Constitution Thursday. He replied: "I have given the new Constitution a very thorough and careful study and will say, frankly, that I began the study feeling that I must oppose the instrument. I can find no serious objection to it, however, and I am heartily in favor of it, and shall vote for it and work for it. I believe it is as near perfect as any convention could have made it. Of course there are minor defects in it, but they are easily corrected, and the courts will find no difficulty in construing any of its provisions. Yes, sir; you may say, if you wish, that I am heartily pleased with the new Constitution, and believe the people ought to adopt it."

If all reports are true the alleged manufacture of tin-plate in this country is one of the biggest frauds the Republicans ever attempted to palm off on the public. An exchange says: "The Philadelphia Times is circulating marked copies of articles descriptive of the tin-plate factory in that city, as protection campaign literature. From these articles it is learned that a few men superintended by a foreman from Wales are helping a Welsh tinner to dip Welsh plates in Welsh tin. And the product is called American roofing tin. And the man can dip forty boxes a day. It is very like a Betty-and-I-killed-the-bear proceeding. America touches the button and Wales does the rest. As an industry it is a mere pretense, as a few thousand men can dip all the plates that are annually consumed in America."

A Startling Statement.

The Louisville Post says it well known that every bank in that city has been called upon to contribute money to aid in defeating the new Constitution.

This is a startling statement, and should arouse the people to a sense of their duty at the approaching August election.

The corporations are fighting the new Constitution, and they will not leave anything undone to prevent its adoption. A thorough organization is being perfected.

An article published yesterday shows why the banks are being appealed to by the opposition.

On this point the Post says: "The assessment that has been made upon the banks of Kentucky by the millionaire conspirators who are determined to defeat the new Constitution is one-tenth of one per cent. on both capital stock and surplus. Before paying this assessment, however, it would be well for directors and officers in banks to look out for their own interest. It would be the part of wisdom for them to examine the law and their consciences before voting any stockholder's money to be used as a corruption fund for the purpose of defeating the new Constitution."

"There are dozens of cases in our court reports and dozens of decisions which show that the director or officer who misappropriates the money of stockholders does a dishonest and unlawful act. It is an improper use of corporate funds for an unlawful purpose. The clerk who taps the cash drawer would be called an embezzler. Is a director any better who in defiance of law, who in disregard of his sworn obligation, at the instance of interested parties, takes money from the drawer of the corporation whose interest he swore to subserve to spend in debauching the voters of the State?"

And so an immense corruption fund is to be raised to prevent the adoption of the new Constitution—a Constitution framed to put all property holders on an equality as regards taxation.

We are mistaken in the honest voters of Kentucky if they do not rally to the polls in August and teach the arrogant corporations a lesson they will never forget.

Rev. Henry Forman.

Rev. Henry Forman and wife, missionaries, have arrived at Washington on a visit to relatives, and expect to be in Kentucky for some months. Mr. Forman is a son of Rev. Charles W. Forman, who went from this county as a missionary to the far away land of India more than forty years ago, and who in this time has made but two trips to America.

The son left India last October, and has been visiting relatives of his wife in Pennsylvania. He is just from the session of the General Assembly at Detroit, and tells of seeing Judge Breckinridge when he fell, after finishing his speech on the Briggs question, and almost immediately expired. The Judge had presided the evening before at a meeting of the Foreign Missionary Board and introduced Mr. Forman as one of the speakers.

Mr. Forman is a grandson of that devoted missionary and grand man, the Rev. Dr. John Newton, long of India and well known in this country. Besides his father, Mr. Forman has two brothers and a sister now in India, and another sister will return to that country with him in September.

Life-size Photographs.

In these days of shoddy we would call the attention of our friends to the many frauds that are being put off on the people in the way of life-size portraits. The pictures that we have seen lately around this community, and which are passed off as crayons, are nothing but bromide prints and are sold by agents at from \$4.00 to \$8.00, which we can make for you (if you want them) at 50 cents to \$1.50, exactly the same picture, and we can put them in the same frame for \$3.00 to \$3.50. So don't be fooled, but remember our specialty is life-size photographs made direct from life or enlarged from smaller photos. Call and see samples.

KACKLEY & CADY, Photographers.

The Sunday Question.

Editor Bulletin: We are glad of a desire on the part of the barbers of this city to close on Sunday. The petition handed me for presentation to the Council was put into the hands of Rev. Mr. Lucas. But the Pastors' Union has not met since receiving the petition. It will meet next Monday, and then they will decide on some action that will generally apply to the Sunday question.

THOMAS HANFORD,
Pastor of the M. E. Church.

To Dispel Colds,

Headaches and fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual consumption, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

COLONEL JOHN COCKERILL has bought the Daily Continent of New York and on Monday will consolidate it with the Commercial Advertiser.

County Court Doings.

James Earnshaw qualified as Chairman of the Board of Infirmary Directors, with Ernest Dietrich, W. B. McMillan, J. J. McMillan, J. W. Reynolds and H. Earnshaw & Co. as sureties.

An inventory and appraisal of the personal estate of John Stevenson and an allotment to the widow of same were filed and ordered recorded. The appraisal amounted to \$3,357.20.

An inventory and appraisal of the trust estate of Weiland & Frost was filed and ordered recorded. The property was appraised at \$510.31.

An inventory and appraisal of the personal estate of H. F. Hawkins, a sale bill of same and an allotment to the widow of said Hawkins were filed and ordered recorded. The sale amounted to \$646.69.

John E. Wells and James Earnshaw qualified as Justices of the Peace.

The following accounts for record books were allowed and ordered certified for payment: John P. Morton & Co., \$29.85; Troup Manufacturing Co., \$17.

Here and There.

Miss Annie Walsh is visiting at Bethel, Bath County.

Miss Anna Pelham is visiting Mrs. Joseph A. Miller, of Millersburg.

Mr. and Mrs. Charles Bland, of Frankfort, are here visiting relatives.

Mr. Dan Morgan, of Omaha, is in town on a visit to his mother, Mrs. Julia Morgan.

Mrs. Duke Watson and daughters, of Shannon, are visiting friends at Lexington.

Miss May Hord, of Helena, is the guest of Miss Nettie Robinson, of West Second street.

Mrs. James Arthur, of Shannon, is visiting Dr. McGranaghan's family, of Lexington.

Mr. Thomas Stockton, of Elmo, W. Va., is visiting his mother, Mrs. John M. Stockton.

Miss Fannie Frazee has returned from Louisville, where she attended school the past session.

River News.

The Congo will pass down to-morrow. The Hudson re-enters the Pittsburg trade this evening. The Scotia passed up last night.

Due up: Chancellor for Portsmouth at 9 p. m.; Bonanza for Pomeroy and Hudson for Pittsburg at midnight.

The Wells makes a trip morning and afternoon between Augusta and Maysville. She's as regular as a C. & O. train, almost.

Captain George Barkley, formerly of the ferryboat Gretna Green, is now a prosperous boot and shoe merchant at New Castle, Ind.

From March 9 to May 26 inclusive, 30,616,400 bushels of coal was towed into the Pittsburg harbor from the various pools above by forty-three towboats. Of that amount the towboat I. N. Bunton towed in the largest amount, which was 2,313,000 bushels, and the J. N. Hook the smallest portion, only 10,500 bushels.

The C. and O.'s Earnings.

The C. and O. goes right ahead month after month showing handsome increases in earnings, no matter how light traffic is with other lines. The May showing must certainly make the officials and stockholders of the C. and O. feel jubilant. Here it is. For the fourth quarter of May the figures are:

1891.....	\$218,961 30
1890.....	198,615 30
Increase.....	\$ 20,346 03
For the month of May the earnings were:	
1891.....	\$719,848 34
1890.....	640,996 95
Increase.....	\$ 78,851 39

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THE Kentucky Press Association has elected the following officers for the ensuing year: President, H. A. Somers, of the Elizabethtown News; Vice President, C. M. Meacham, of the Hopkinsville Republican; Secretary, Ion B. Nall, of the Farmers' Home Journal; Treasurer, Ben Harrison, of Henderson.

BABY IS SICK—The woeful expression of a Des Moines teamster's countenance showed his deep anxiety was not entirely without cause, when he enquired of a druggist of the same city, what was best to give a baby for a cold? It was not necessary for him to say more, his countenance showed that the pet of the family if not the idol of his life, was in distress. "We give our baby Chamberlain's Cough Remedy," was the druggist's answer. "I don't like to give the baby such strong medicine," said the teamster. "You know John Oleson, of the Waters-Talbot Printing Co., don't you?" inquired the druggist. "His baby, when eighteen months old, got hold of a bottle of Chamberlain's Cough Remedy and drank the whole of it. Of course it made the baby vomit very freely, but did not injure it in the least, and what is more, it cured the baby's cold. The teamster readily knew the value of the Remedy, having used it himself, and was now satisfied that there was no danger in giving it even to a baby. For sale by Power & Reynolds.

Cincinnati Live Stock Market.

(Friday.)

HOGS—Common, \$3.85@4.30; fair to good light, \$4.50@4.75; do packing, \$4.50@4.65; selected butchers', \$4.65@4.80. Market dull and weak.
CATTLE—Common, \$2.25@3.25; fair to medium, \$3.50@4.25; good to common, \$4.25@5.25; fair to good shipping, \$4.50@5.50. Market slow and easy.
VEAL CALVES—Common and large, \$3.25@4.25; fair to good light, \$4.50@5.50. Market steady.
SHEEP—Common to fair, \$3.25@4.00; good to choice, \$4.25@4.75. Extra, \$5.00. Market strong.
LAMBS—Common to fair, \$3.25@5.50; heavy shippers, \$6.75@7.15. Market active and higher.

Cincinnati Tobacco Market.

(Thursday.)

The offerings continue of good size, and there is no change to note from the preceding day, a firm, active market prevailing. The same spirited demand is shown for both old and new goods and fine leaf, and they are bringing very full prices. Cigars, trash, lugs and medium leaf hold active at full prices. Common trash, lugs and nondescripts show a fair demand, but prices are in the main low.
At the Cincinnati Warehouse 35 hhds sold from \$15 to \$34.
Of the 696 hhds, 121 sold from \$1 to \$3.95, 139 from \$4 to \$5.35, 186 from \$6 to \$7.35, 56 from \$8 to \$9.75, 122 from \$10 to \$14.75, 99 from \$15 to \$19.50, 19 from \$20 to \$23.50, 2 from \$25 to \$29 and 2 from \$30 to \$34.

Here We Are

«AGAIN»

All we can say is to come. We will not give any prices this week, as other houses try to imitate, but if you wish to save money go to

A ROUND-TRIP TICKET FOR

THE GRAND EXCURSION TO LOUISVILLE ON THE 14th.

It is an undeniable fact that our Mammoth Clothing Palace contains qualities and values superior to any house in the State. OUR TAILOR-MADE SUITS (strictly confined to us by several of the largest Fine Clothing manufacturers in the country) are the admiration of all good dressers. The man that studies economy can wear these goods and feel assured that aside from looking as well, and in many instances better than the so-called custom-work, they will give the very best of satisfaction in all that pertains to a good Suit of Clothes. The convincing proof of this is that hundreds of our customers of unquestionable taste wear them. Of course you and everybody else know that our CHILDREN'S DEPARTMENT is the greatest in the State.

THE tailors of Paris are on a strike. They want \$15 for making a dress coat, with extras sufficient to bring the price to \$20.

THE June term of the Mason Quarterly Court will convene next Tuesday. Judge Phister reports about thirty cases on the docket.

THE storm this week did considerable damage at Augusta and near there. Houses were unroofed, barns wrecked and trees were uprooted or broken off.

THE Bee Hive advertises a big carpet sale. Prices have been cut and they guarantee you a saving of 25 per cent. See figures.

BILIOUSNESS, constipation, torpid liver, etc., cured by Dr. Miles' Nerve and Liver Pills, 50 doses 25 cents. Samples free at J. J. Wood's.

THERE will be preaching at the Baptist Church to-morrow at the usual hours by the pastor. Subject at 8 p. m.: "An Important Sale."

THERE are ten suits pending at Bowling Green against the L. and N. Railroad for a total of \$220,000 for damages for injuries to life or limb.

THE Ministers' Union will meet in the study of Rev. B. W. Mebane, at the Central Presbyterian Church, at 3 o'clock p. m. next Monday.

COLONEL R. W. HARRIS, who had charge of the late Fleming True Blue Democrat, is now an enthusiastic Farmers' Alliance man in West Virginia.

MR. W. H. FREDERICK has been awarded the contract to build a handsome residence for Mr. W. R. Key. He will commence work on it at once.

ANOTHER heavy rain fell this morning. If the farmers don't get out all their tobacco, it will be because they haven't the ground ready or haven't the plants. The season is a fine one.

ONE thing must not be lost sight of. When you buy jewelry from Ballenger, you can rest assured of getting just what you bargain for. His stock is the best and is always complete.

BEFORE you pay a dollar, try a fifty cent bottle of Pioneer Sarsaparilla. It will set you right, purify your blood and make a new being of you. Price, 50 cents. For sale by Power & Reynolds.

DR. LINDSAY, who was charged with shooting Nat Desha, colored, at Carlisle, was discharged on the examining trial. The wound was not fatal. It was claimed the negro accidentally shot himself.

SERVICES to-morrow at the M. E. Church at 11 a. m. and 8 p. m. by Rev. Dr. Hanford, pastor. Subject in the morning: "The Almighty Power of Truth." Epworth League at 7 p. m. Strangers especially invited.

"CHRIST'S BAR TO NEUTRALITY." Luke, 11, 23, will be the subject of Rev. C. S. Lucas' sermon to-morrow morning at the Christian Church. "True Soul-Liberty," Gal. 5, 1, will be the subject of the evening sermon. All invited.

THE new hotel at Stone City on the C. and O. was destroyed by the wind-storm Wednesday evening. Considerable damage was done at other points in Lewis County. Two hundred forest trees were blown down back of Vanceburg. One person was seriously hurt.

REV. J. E. WRIGHT will preach at Washington to-morrow morning, and at Old Stone Church on Lawrence Creek at 3:30 in the afternoon. He returned last night from the district conference at Bethel, Bath County, and reports that the members of the conference were royally entertained by the good people of that place.

MISS NELLIE MARSH, of Paris, Ky., will open a Kindergarten school on Monday, June 8th, at the residence of Mrs. Geo. T. Hunter. She will be pleased if the parents who agreed to send their children will have them there at the above time, and she would like to have any others who desire to send their children to call upon her.

THE approaching meeting at Ruggles' camp ground from the present indications will be the best that was ever held. The cottages belonging to the Board are all taken but three, and all rooms over children's chapel are taken except one. Any one desiring rooms or cottages write to I. M. Lane, this city. The privileges will be let on the 29th.

REAR-ADMIRAL WILLIAM P. McCANN, of the flagship Baltimore, who is now commanding the squadron of the U. S. Navy to whom the Itata was surrendered Thursday, was born in Paris, Bourbon County, on May 4, 1830.

THE last quarterly meeting of the M. E. Church, South, will be held to-morrow. Rev. J. Reeves, Presiding Elder, will preach. Sacrament of the Lord's Supper will be administered after morning sermon. Preaching at night. All invited to attend these services.

MR. GEORGE CRAWFORD has opened his new blacksmith shop at corner of Second and Lee streets and invites his friends and former patrons to call when needing work in his line. He has had years of experience at the business and guarantees satisfaction. Blacksmithing of all kinds done.

MR. R. B. CASE's barn that was demolished by the wind Thursday night was valued at about \$500, and was insured in the Farmers' Home Mutual Aid Association. There was about 5,000 pounds of tobacco in it, and this was considerably damaged. A singular fact connected with the case is that the storm was severe only at that point, covering but a very narrow strip of country.

MINER'S MAXIMS.

The hen that lays two eggs a day usually does so at the expense of some other branch of its business.

We devote to the Shoe business all our time and attention, and we allow no outside matters to interfere with it. If we don't know something about Shoes, it's getting near time we did.

The dealer who is willing to compromise with his conscience can find plenty of opportunities for doing so. Some Shoes cover a multitude of sins and the dealer is or ought to be familiar with every one of them.

The plain truth of the matter is that the interests of the buyer and seller are identical—the most thorough protection we can give our own interests is to have a scrupulous regard for yours.

What we cannot afford to do is to deal unfairly with a customer. If you don't know anything more about the hidden qualities of Shoes than you do about Sanscrit, you can deal with us just as safely as though Shoes had been a life-long study with you.

BROWNING & CO.,

EAST SECOND STREET.

JEW PERSECUTIONS.

It Has Taken a New Phase in Russia.

LATEST SCHEME OF THE CZAR.

Synagogues Rifled of Their Books and an Effort Being Made to Prove That the Jews are Criminals—Other Foreign Dispatches.

LONDON, June 6.—St. Petersburg advices state that the persecution of the Jews has taken a new phase. The Russian authorities, after having abused, imprisoned and compelled many thousands of the unfortunate race to leave, are now anxious to prove that the Jews are criminals and deserve the punishment inflicted on them before any charge was made.

Therefore the police have seized the books of a number of synagogues containing the Jewish records of marriages, and it is hoped to secure evidence that bigamous marriages have been common, and that Hebrews after obtaining worthless divorces from the rabbis, have married again in violation of law. How far the effort to detect such crimes will succeed remains to be seen.

Damages by Lightning.

LONDON, June 6.—Terrible damage has been done by lightning at Troppau, in Austrian Silesia. Many houses were burned, having been set on fire by the electric fluid, and three persons were killed. A woman is said to have died of fright during the storm, and a large number huddled about the church, praying and crying out while others fought to extinguish the flames.

Gave Himself Away.

LIVERPOOL, June 6.—Conway, the seaman accused of murdering the boy Nicholas Martin, whose mutilated body was found in a bag floating in the harbor, was committed for trial yesterday. When asked to plead he declared to the court "I am regular guilty." Instantly afterwards he protested his innocence.

Prominent Austrian Dead.

VIENNA, June 6.—Leopold Hasner, the Austrian statesman, philosopher and economist, is dead. He was born in Prague, March 15, 1818, and was Austrian premier in 1870.

Gold Payment Suspended.

BUENOS AYRES, June 6.—A proposal has been submitted to the senate suspending payments in gold for six months. The Italian and Spanish commercial banks have reopened.

New Society in Italy.

ROME, June 6.—A new mala vita association has been discovered at Taranto, Italy. The members are marked by tattooing.

Pope Ordered to Take a Rest.

ROME, June 6.—The pope has been ordered to take a few days' complete rest after the fatigue of the consistory.

BRUTAL ASSAULT.

Nine Philadelphia Friends That Deserve Lynching.

PHILADELPHIA, June 6.—Jennie Long, aged 18 years, of Olney, was at an early hour yesterday morning found in a dazed condition at Fourth and York streets by Policeman Heath. Failing to get a satisfactory story from her, he took her to the station house and placed her under the charge of the matron.

The girl was suffering great mental agony, and as soon as she had been sufficiently quieted she told the matron a harrowing account of what had been committed upon her. She stated that on Wednesday she came to the city in search of employment, and while walking around she encountered an unknown man who induced her to go to the house of David Burns, No. 1817 North Second street. She had not been there long before one of the men called her into a rear room. On going in, the door was shut and locked behind her, and she was a prisoner.

Here she was kept for an hour with the man, who made known to her in brutal tones the object of her confinement. The girl fought desperately against the man's advances, but her strength gave way to the power of her captor. After the first brute had tortured the frail girl and conquered her, he hastily left the room. One by one the other men entered, until the poor girl had been made the victim of the nine brutes who occupied the outer room.

When the ninth man left the room the girl was allowed to depart, and wandered around until she met the officer. The officers, after a search, arrested Elmer Young, aged 21; John McGurk, aged 30; Frank McDermott, aged 30; E. Laffer, aged 30; Alexander Devlin, aged 35; Patrick Bollerton, aged 30; Philip Reuel, aged 27; John Beadley, aged 25, and David Burns. At a hearing yesterday afternoon the fiends were committed to await a further hearing.

Jennie Long was sent to the Episcopal hospital, where she now lies in a precarious condition.

Railroad Mortgaged.

YOUNGSTOWN, O., June 6.—A mortgage was filed with County Recorder Davis yesterday by which the Pittsburgh and Western Railroad company transfers to the Mercantile Trust company, of New York, all its possessions and franchises for the consideration of \$2,000,000. The mortgage is given for the purpose of allowing the road to float \$2,000,000 worth of bonds with the privilege of floating \$1,500,000 more, with which to pay the indebtedness of the railroad company, and allowing it to make a clear deed to the Baltimore and Ohio which recently purchased the Pittsburgh and Western road.

NEW YORK, June 6.—An explosion occurred in the varnish factory of Meyer & Lowenstein at Long Island City yesterday afternoon, resulting in the fatal burning of Anto Geisner, and the serious injury of Carl Drummgard, son of the superintendent. The explosion set fire to the building, which was damaged \$7,000.

SECRETARY NOBLE TO RESIGN.

Rumors That There Will Soon Be a Vacancy in the Cabinet.

NEW YORK, June 6.—A special to The Press from Washington says: A gentleman in high official life here, who has a friend staying at the Park hotel, Hot Springs, Ark., where Secretary Noble is also registered, received a letter last night in which the writer reported Secretary Noble as saying that he would resign from the cabinet at an early date on account of his health.

The Hot Springs correspondent also credited Mr. Noble's private secretary with saying that his superior would send his resignation to the president to take effect Aug. 1.

The truth of the report was discredited in official circles here last night, although no one could be found who was in a position to speak out authoritatively.

HIS LAST HOURS.

Sir John Macdonald Hovering Between Life and Death.

OTTAWA, Ont., June 6.—Sir John Macdonald has been in a comatose condition for several hours. His death is expected at any time, but he may last an hour or two yet.

Dr. Wright attributes the change for the worse, which took place yesterday evening, to failure of both brain and heart, and says it will be marvelous if the premier passes many more hours.

Dr. Grant likens the premier's condition to the dying flickering of a burnt-out candle which may go out at any moment. "I don't see," said he, "how he can last more than a few hours at most. His condition is as bad as can be, and the only thread between life and death may be severed at any moment."

Caused by a Leaking Gas Pipe.

MINNEAPOLIS, June 6.—G. M. Willis, a civil engineer of the Burlington and Northern railroad, returned home from a trip yesterday morning at 6 o'clock and found his wife and little boy, aged 7, lying in bed unconscious. A strong smell of gas told the story. A physician who was immediately summoned pronounced the boy dead and the wife barely alive. Hopes are entertained for the wife's recovery. A leaking pipe caused the trouble.

Only a Drunken Crowd.

AUGUSTA, Me., June 6.—Detective Heald, of the Maine Central railroad, who has been investigating the recent alleged attempt at train robbery near Enfield, says the alleged train robbers were simply a drunken crowd who boarded the train at the station, pulled the cord, stopped the train, fired pistols in the air, jumped from the cars and ran away. They did not attempt to enter the cars, though the doors were open.

Back to Their English Homes.

PITTSBURG, June 6.—Twenty-nine of the locked out stone masons have left this city bound for their homes in England and Scotland. The stone masons have been locked out for seven weeks, with no prospects of an early change in the situation. It is probable that other masons will follow the twenty-nine who left last night.

Proper Way to Assign.

BOSTON, June 6.—Francis F. Emery, boot and shoe manufacturer, has assigned for the benefit of his creditors to Joseph B. Lincoln, of this city, and Hon. Frank Breed, of Lincoln. Mr. Breed stated that all of Mr. Emery's property had been transferred to the assignees for the equal benefit, without preference of all the creditors.

Variety Dive Burned.

NEW ORLEANS, June 6.—At 3:45 o'clock yesterday morning the notorious Royal Palace variety dive, No. 36 Royal street, owned by Schoonhausen, Plante & Company, was destroyed by fire. Loss, \$25,000; insurance, \$16,000. This is the dive to which Elbogen, the procurer, who was recently sent to state's prison in New York for five years, sent a number of virtuous girls, under the impression that they were to become respectable actresses. The destruction of the dive is pleasing to the people of this city.

Injured in a Soap Factory.

PITTSBURG, June 6.—By the bursting of a new centrifugal machine while being tested at W. & E. Walker's soap factory yesterday, Hay Walker, a member of the firm; Jacob Mowery, Moses Mowery, laborers, and John Liebich, a chemist, were severely injured. Liebich and Walker's injuries are slight. The Mowery brothers are badly cut and bruised. They were removed to the Allegheny general hospital. The attending physicians say that while their injuries are serious they are not necessarily fatal.

But One Hope Left.

PITTSBURG, June 6.—The supreme court has refused to grant the application for a new trial in the case of Andrew Todd, George Rusnack and Michael Sabol, the Hungarians charged with murder during a riot at the Edgar Thompson Steel works last New Years Day, at which time Foreman Michael Quinn was murdered. The attorneys in the case will now endeavor to have the sentence commuted to life imprisonment.

Elliott Murder Trial Begun.

COLUMBUS, O., June 6.—The jury in the Elliott murder case was sworn in yesterday. Attorneys for the prosecution and defense made their statements as to what they expected the evidence to prove. During Attorney Converse's argument allusion was made to the offensive charges Osborne had published regarding the wives of the Elliotts. The defendant rose in his chair, made an exclamation of grief and sank back weeping.

German Fleet at San Francisco.

SAN FRANCISCO, June 6.—The German fleet of three corvettes, the Leipsic, the Sophie and the Alexandrine, under command of Admiral Valoris, which left Yokohama for this port May 31, have arrived here. Fully 200 officers and 1,800 men are on the vessels. The fleet is bound for Chilean water and will coal and provision here and also take on board supplies to be transferred to the German warships now in South American waters.

Young Mothers!

We Offer You a Remedy which Insures Safety to Life of Mother and Child.

"MOTHER'S FRIEND"

Robs Confinement of its Pain, Horror and Risk.

After using one bottle of "Mother's Friend" I suffered but little pain, and did not experience that weakness afterward usual in such cases.—Mrs. ANNIE GAGE, Lamar, Mo., Jan. 15th, 1891.

Sent by express, charges prepaid, on receipt of price, \$1.50 per bottle. Book to Mothers mailed free. BRADFIELD REGULATOR CO., ATLANTA, GA. SOLD BY ALL DRUGGISTS.
